

The Comfort Standard

Propane & Oil Delivery • Heating & Cooling Solutions • Plumbing • Generators

A SPECIAL THANKS TO OUR CUSTOMERS & THE ESHENAU TEAM

As we welcome the warmer weather ahead, we would like to thank our customers, staff members, and community for working together throughout the long winter. In addition to our existing customer base, we are excited to announce that we have acquired Sadler Oil, and we are looking forward to providing reliable home comfort without interruption to all Sadler Oil customers.

To our loyal customers: As always, we are thankful for your loyalty through another unpredictable heating season. Between making sure our delivery drivers were able to reach your tank's fill safely and your patience for service, the Eshenaur team truly appreciates your cooperation!

To our dedicated employees: Offering 24/7 service means we have staff available to assist customers day or night, week day or weekend, rain (or snow or sleet) or shine. Our office staff, service team, and delivery drivers worked hard this heating season to make sure all homes we service were kept warm and safe.

To our helpful community: We are fortunate to live within a close-knit community of neighbors who care to help keep the area safe. For the service personnel who worked overtime to protect our community's homes and families this winter, we appreciate all you do.

We are proud to provide comfort and convenience to our customers throughout the seasons. Visit eshenaus.com to learn more about what we offer. Thank you for your business!

Sincerely,

Craig Eshenaur

MAINTAIN YOUR SYSTEM AND SAVE

SPRING A/C TUNE-UP SPECIAL

\$99.95

Contact us today to schedule service before 5/31/15.
Service must be performed by W.C. Eshenaur & Son, Inc.

An annual heating system tune-up is important for the reliability and energy efficiency of your equipment, but did you know that annual maintenance for your air conditioning system can greatly affect your energy use, as well?

Schedule a tune-up for your air conditioning equipment early this season to ensure it will be running at peak efficiency all summer long. The wear and tear of your A/C system's fans, motors, and other moving parts from last summer's use can result in higher-than-necessary energy use this year. Clogged filters and other system parts will need attention, particularly after the system has been idle for months.

We service all types of air conditioning systems. Take advantage of our tune-up special for just \$99.95 this spring!

INSTALLATIONS AND UPGRADES FOR YOUR COMFORT

Be cool and comfortable this summer with equipment you can rely on from leading manufacturers.

CENTRAL AIR CONDITIONING SYSTEMS

- Achieve whole-home comfort from one comprehensive system.
- Control your indoor temperature conveniently by thermostat.
- Choose among top brands like American Standard® and Carrier®.

MINI-SPLIT DUCTLESS SYSTEMS

- Benefit from precise zoning more effectively and efficiently than conventional wall and/or window units.
- Some models can act as a supplemental heat source (heat pump) to your home heating each winter.
- Mitsubishi products are built to last and offer an unbeatable value.

AIR PURIFICATION SYSTEMS

- Improve your health and overall indoor comfort.
- Automatic options are available for limiting energy use when operation is not needed.
- Choose among top brands like Aprilaire® and Honeywell.

Call us today at (717) 236-5031 to find out more about air conditioning system options or to schedule your installation.

PROTECT YOUR COOLING EQUIPMENT

Coverage for your air conditioning system, just like protecting your heating equipment, is beneficial for your home and family.

✓ ANNUAL 16 POINT SYSTEM TUNE-UP

We provide you with a 16 point system tune-up that will reduce the likelihood that your equipment will malfunction during the hottest days of summer.

✓ PRIORITY SERVICE

Rest assured if your system needs unplanned repair that we will be there for you. (Priority Service is included in this Plan except as noted in #6 under General Conditions.)

✓ 15% DISCOUNT ON PARTS

W.C. Eshenaur & Son, Inc. will repair or replace ANY part that may become defective due to normal use during the term of this policy. (This does not apply to labor costs or system replacement.)

Contact our Service Department at (717) 236-5031 for more information.

Are you enrolled in a heating oil, propane, or natural gas heating maintenance plan?

Save 10% on an air conditioning or
heat pump maintenance plan!

FIVE WAYS TO CUT ENERGY COSTS

1 Make sure your home is properly insulated by plugging any air leaks around your windows and doors. By caulking and weather-stripping all seams, cracks, and openings you can save 10% or more on energy costs annually.

2 Replace the air filters in your heating and cooling systems to reduce energy consumption and improve your air quality.

3 A programmable thermostat can save up to \$180 a year in energy costs. For most homeowners, this represents about 15% in annual energy costs.

4 Upgrade to an ENERGY STAR® approved heating or cooling system. These products limit greenhouse gas emissions and use approximately 20% to 30% less energy than systems that do not earn ENERGY STAR approval.

5 Reduce your cost of producing hot water by adding an indirect water tank if you have a tankless boiler. For other applications, consider replacing your hot water heater if it is over 10 years old with a new, high-efficiency unit.

WATER TREATMENT AND PLUMBING SERVICES

Along with the reliable heating and cooling services you can depend on from our skilled Service Department, we are also experienced in carefully servicing all kinds of plumbing issues and equipment. Whether you are faced with a leak in your plumbing system, low water pressure, or any equipment fixture dilemma, you can call on W.C. Eshenaur & Son, Inc. We also have the resources and proficiency to install a number of plumbing fixtures and equipment should yours need to be replaced. Contact us for information on plumbing services or complete kitchen or bathroom remodeling.

As your water treatment specialists, we install water conditioning systems and water softeners that can resolve or reduce hard water problems. Please call us today to see if water treatment would be right for your home.

\$50 OFF

A WATER TREATMENT SERVICE

Must be performed by W.C. Eshenaur & Son, Inc.

Expires 6/30/15.

BENEFITS OF A HOME GENERATOR

\$200 OFF

THE INSTALLATION OF A NEW GENERAC GENERATOR!

Must be performed by W.C. Eshenaur & Son, Inc.
Offer expires 6/30/15.

W.C. Eshenaur & Son, Inc. offers complete installation of Generac® automatic standby residential generators. Reliable and affordable, Generac systems are built with durability to keep your home up and running in the event of a power outage. With a whole-house generator you will be able to use necessary home appliances like heating sources, air conditioners, lights, refrigerators, and most electrical appliances when your power is out.

WHAT HAPPENS IF YOU LOSE POWER WHEN YOU HAVE A GENERAC STANDBY GENERATOR?

- 1 **Utility power is lost.**
- 2 **Generator automatically detects a problem.**
- 3 **Generator automatically turns on.**
- 4 **Electricity is automatically restored.**

Losing power can happen in any season – and whether you expect it or not. Be prepared for the unexpected! Contact us to learn more about the quality and benefits of a home generator, and save on your installation this spring.
